

## How to Make Money Promoting Julie Stoian's Programs + Services

Okay, so if I'm going to blow ALL the regular Joe Guru's outta the water, I need some help with visibility and promotion. So here is a rundown of the things I do, and where and how to promote them to people who need it!

### The Digital Gangsta

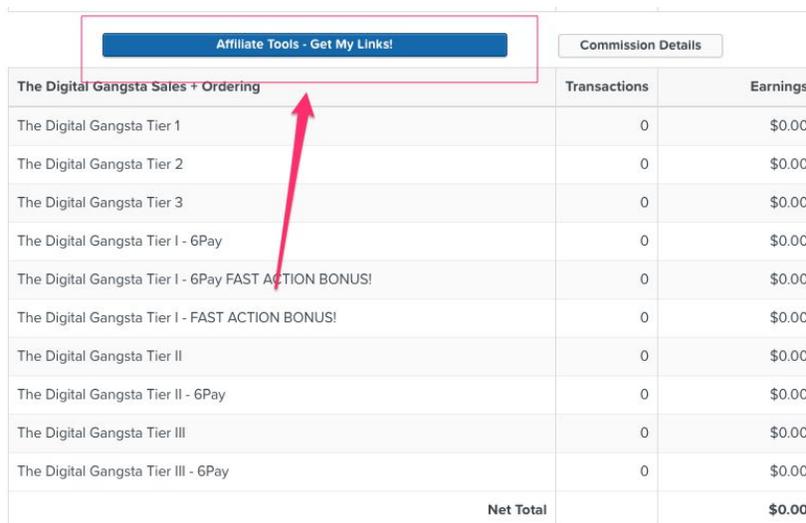

This is my flagship program and is for ANYONE looking to get an online business going. Specifically for people who want to be coaches, consultants, course creators, services providers, etc. It's not a great fit for a local business, unless that local business wants to build an online arm (like a therapist or photographer). Then it DOES work!

The Digital Gangsta covers blogging, branding, list building, email marketing, launching, course creation, copy, sales funnels, business development, mindset, social media, and more. It's literally a one-stop shop course program for online business.

PLEASE MAKE SURE YOU DO THIS IN AN INCOGNITO WINDOW ON YOUR WEB BROWSER!

You have the choice to send them to the FREE WEBINAR first, or you can send them right to the sales page. Please note that the sales page has a 7-day countdown timer, and they WON'T get the email sequence with it unless you send them to the webinar first.

If you need a testimonial page, I do have one here.

### **Sales Funnel Mastermind**

This is an 8-week group coaching program, laser focused and very intense. It's literally for EXISTING business owners who need a funnel and can't seem to get it done. This is not for people who are building a new business, trying to organize one, etc. This is for people who have a product or course, and are READY to sell it!

You can find all the affiliate details in the same area as The Digital Gangsta. **In terms of where to send them, you can send them to my WEBINAR.** <https://juliestoian.co/fbads>

There is a sales page, but it just leads to a call. If you'd like to see the sales page for reference, it's here → <http://www.createyourlaptoplife.com/sfm>

The price is \$3000 and commission is only 10% because this is essentially hands on, not really a course experience. This is the least scalable of all my products. This operates more like a finder's fee.

There are other things you can be an affiliate for in the dashboard area. Things like the CYLL Network (the FB group and Slack community that's \$199/yr), a freelance bundle, Facebook Ads Vault, etc. **The Facebook Ads Vault doesn't even have a sales page. LOL** - it's just an order form. <https://thedigitalgangsta.com/fbvault-1>. That's \$497 with a 20% commission. Please note! The Facebook Ads Vault is PART of The Digital Gangsta.

Ultimately, the best and most profitable program is The Digital Gangsta, so that's what is best to push. But feel free to promote ANYTHING you see in your affiliate area!
